PROFESSIONAL SUMMARY :

Aspiring Software Developer and Data Analyst with knowledge of Python, Django, React.js, SQL, Power BI, Pandas, and NumPy. Skilled in developing web applications, database management, CRUD operations, data analysis, visualization, and dashboard creation. Passionate about building scalable solutions and generating data-driven insights.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, JavaScript
- **Frontend:** HTML5, CSS3, JavaScript, React.js, React Router,
- **Database:** MySQL, SQLite
- **Backend Development:** Python, Django, Django REST Framework, Authentication, CRUD Operations
- **Data Analytics & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Microsoft Excel, Power BI, DAX
- **Concepts:** Data Cleaning, Exploratory Data Analysis (EDA), Database Design, Object-Oriented, Programming (OOP), Dashboard Development
- **Tools:** VS Code, GitHub , Jupyter Notebook,

PROJECTS

Flight Ticket Booking System

Technologies Used: Python, Django, HTML, CSS, SQLite/MySQL

- Developed a web-based Flight Ticket Booking System using Django and Python.
- Implemented user registration, login, flight search, and ticket booking functionalities.
- Designed and managed the database for flight details, passenger information, and booking records.
- Integrated CRUD operations to efficiently manage flight and booking data.
- Built a responsive user interface using HTML and CSS.
- GitHub: https://github.com/Karthikh02/Flight-Ticket-Booking-System

IPL Match Insights and Performance Analysis

Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn

- Cleaned and analyzed IPL datasets using Python, Pandas, and NumPy to prepare data for analysis.
- Performed EDA to identify team performance, player statistics, and match-winning trends.
- Created visualizations using Matplotlib and Seaborn to generate meaningful performance insights.
- **GitHub:** github.com/karthikh02

E-Commerce Web Application (ShopQuick)

Technologies Used: React.js, JavaScript, HTML, CSS, Material UI

- Developed a responsive e-commerce frontend application using React.js.
- Created reusable React components for product listing, navigation, and UI elements.
- Implemented React Router for page navigation.
- Integrated product data using API requests.
- Designed user-friendly layouts using CSS and Material UI components.

EDUCATION

Bachelor of Computer Applications (BCA)

Shree Maata Degree College, Hospet | CGPA : 8.15 **JUNE 2022 - MAY 2025**
Vijayanagara Sri Krishna Devaraya University, Ballari

CERTIFICATIONS

- Python Data Analytics – QSpiders
- Python Full Stack Development – QSpiders
